Mean Travel Time to Work: 24.9 minutes

Workers 16 years and older who did not work at home

About the American Community Survey

The American Community Survey (ACS) is an ongoing survey conducted by the US Census Bureau, designed to provide more current data than available through a decennial Census. Commuting data were compiled from ACS survey responses gathered over a five-year period, from 2006 to 2010. Respondents were asked if they worked, where they worked, and how long it usually took for them to go from home to work, among other questions.
